

Hello! This past May I graduated from West Virginia University with a Bachelor of Science degree in mathematics. I am now working as a post-baccalaureate student intern. West Virginia has been my home since my family moved there in 2004. Since then, I have grown to love the mountains and anything outdoors. Los Alamos has been a perfect adjustment. Some of my favorite activities include skiing, snowboarding, hiking, camping, ice skating, and hanging out with friends. After my internship ends next year, I will most likely attend graduate school for applied mathematics.
